

Portal Effects (URP & LWRP)

Introduction

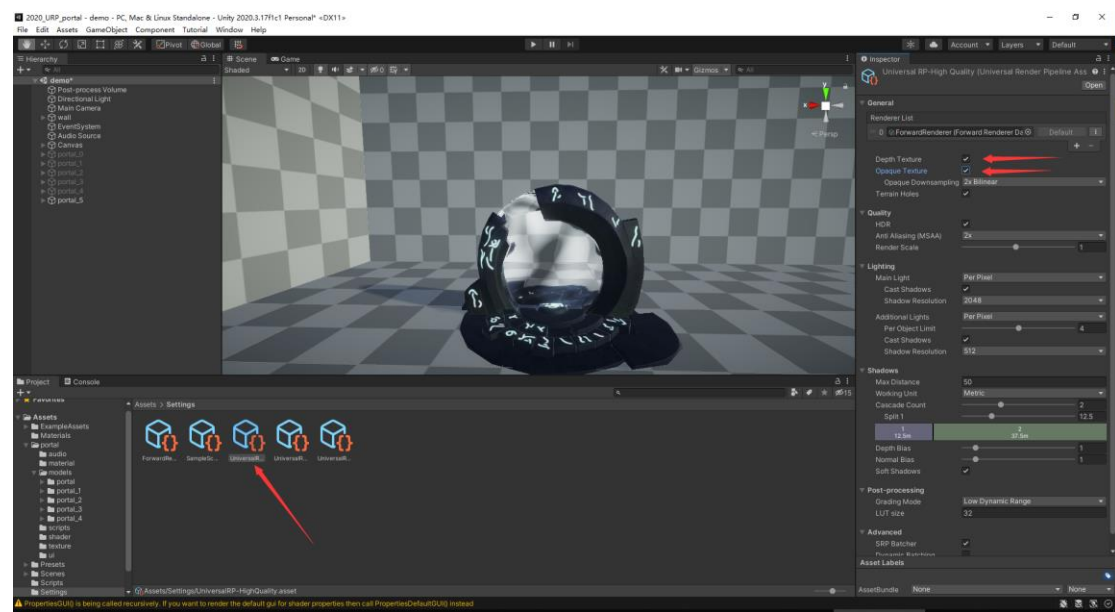

This is a portal effects pack. If you want to make a portal effect in your game. Then this asset is perfect for you. It contains 5 portal models, 2 portal effect shaders, and 6 portal materials have been adjusted. And also it contains a simple demo to show how it works. It can make your game looks cooler. You don't need to write any shader by yourself, you can use this package directly to achieve the effect you want, and it can be integrated into your project very easily. The shader files expose multiple parameters for you to adjust. You can adjust more many different effects by yourself. Due to these cool effects achieved by using the shader, all performance losses are small, and the mobile platform can also run perfectly.

PS: Only support URP (Universal Render Pipeline), LWRP (Light Weight Render Pipeline)
